6. Accidental Release Measures:

Steps to be Taken in Case Material is Released or Spilled:

Clean up spills immediately, observing precautions in Section 8 of this document. Isolate hazard area. Keep unnecessary and unprotected personnel from entering.

SMALL SPILL: Absorb small spills on sand, vermiculite or other inert absorbent. Place contaminated material in appropriate container for disposal.

LARGE SPILL: Dike large spills using absorbent or impervious material such as clay or sand. Recover and contain as much free liquid as possible for reuse. Allow absorbed material to solidify, and scrape up for disposal. After removal, clean contaminated area thoroughly with water. Pick up wash liquid with additional absorbent and place in disposal container.

This material should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.

7. Handling and Storage:

Precautions to be Taken:

KEEP OUT OF REACH OF CHILDREN!

Use only in well-ventilated area. Minimize dust generation and accumulation.

Keep container closed when not in use. Keep away from food, feed and drinking water. Store in a well ventilated, dry place away from heat.
