**Don't let *this* happen
to the hemlocks in
Cloudland Canyon!**

**Please come and
help save them.**

Hemlock Help at Cloudland Canyon State Park **Sponsored by the Friends of Cloudland Canyon**

Friday, June 17, 4 - 8 p.m. Facilitator Training Workshop

If you'd like to learn how to save the hemlocks, please attend this workshop for complete how-to instruction and volunteer training covering the trees, the insects that are killing them, assessing infestations, control and treatment methods, cost and safety, assisting property owners, planning community hemlock projects, working on public lands, and more.

Saturday, June 18, 9 a.m. – 3:30 p.m. Hemlock Treatment Project

Volunteers are needed to help treat the hemlocks in selected areas of the park. Following a brief orientation, participants will work in small teams under the supervision of park personnel and experienced Save Georgia's Hemlocks volunteers. Even if you're not able to attend the training class on Friday, please come on Saturday to enjoy a fun day in the woods, get to know other good people who love the great outdoors, and gain the satisfaction of helping to preserve the beauty and environmental health of this wonderful park.

REGISTRATION IS REQUIRED for the training and/or treatment project. For more information or to register, call 706-429-8010 or e-mail donna@savegeorgiashemlocks.org.
